

Summer School: Design for Business

10th to 24th July, 2016

School of Architecture & Design, College of Arts, University of Lincoln

UNIVERSITY OF
LINCOLN

The School of Architecture & Design, at the University of Lincoln are proud to host this year's Summer School.

The Lincoln School of Architecture & Design has a distinguished history of nearly 150 years and is located in the heart of one of Europe's most historic cathedral cities. Lincoln is an ideal city in which to study contemporary design with a strong commitment to studio-based practise. The School offers a dynamic, multidisciplinary environment founded on the research and consultancy interests of its academics and practitioners. As an urban campus in one of the world's great small cities, students have the benefit of easy access to the historic centre with its many amenities

The theme for this year's Summer School, *'Design for Business'* concentrates on key design processes and creativity techniques essential, in the journey to generate new insights, to dream it, do it and make it happen. With access to the Schools design studios and facilities students will benefit from an engaging mix of field trips, lively seminars and industry guest speakers.

The summer school will suit students from a variety of creative design disciplines including jewellery, fashion, interior, product, animation, media and graphics. We would also encourage budding entrepreneurial students from business and engineering subjects.

In summary the Summer School includes:

- Options to participate in practical workshops including our 3D digital design labs with laser cutters, 3D printing and 3D scanning.
- Workshops on innovation and creative thinking
- Field trips including London
- Tours, including galleries, museums in the historic City of Lincoln and its Cathedral.
- A welcome and orientation event including a welcome pack.
- A mini exhibition and presentation of certificates with a farewell buffet event.

A certificate of attendance will be presented to all those that complete this years Summer School.

The Summer School tutors include, academics, practising design professionals and researchers working nationally and internationally whose passion will allow students to learn from leading experts and local entrepreneurs.
